Git, GitHub, Netlify, Contentful,
AEM(Adobe Experience Manager),
Storybook, Docker, Figma, ESLint

LANGUAGES

English

French

PROFILE

My journey began with an internship at Inscale as a .NET Core developer where I gained experience with MVC pattern and its features for building web applications. After the internship I accepted a role as a Software Engineer and Server/Network Manager at Intelligence agency of N. Macedonia, expanding my skills into a different field of IT.

This experience helped me realise my passion for web development inspiring me to apply for a front-end developer internship program at "Valtech" where my career as a developer began.

I am looking forward to join a team where I can contribute meaningfully, further develop my skills and grow as a web developer.

EMPLOYMENT HISTORY

Valtech, Skopje

NOVEMBER 2021 – PRESENT

- *Building, styling, and shipping high-quality websites, design systems and cross-platform digital experiences for a diverse array of clients.*
- *Participation in story planning with PO/PM and users, estimation and breakdowns of large features, participation in design meetings with different teams, PR reviews.*

Software Engineer, Intelligence Agency of N. Macedonia

DECEMBER 2019 – JULY 2021

NET Core Developer, INSCALE, Skopje

AUGUST 2019 – NOVEMBER 2019

RELEVANT EXPERIENCE:

- **Front-End Proficiency:** Skilled in HTML, SCSS, and JavaScript, with a strong focus on React/Next.js and additional experience in Vue.js. Adept at implementing mobile-first applications to deliver seamless, responsive user interfaces. Familiar with the BFF (Backend-for-Frontend) architectural pattern.
- **Content Management Systems:** Hands-on experience with AEM (Adobe Experience Manager) and Contentful headless CMS.
- **Server-Side Rendering (SSR):** Experienced in implementing SSR using BFF to serve data efficiently to the client.
- **Problem-Solving:** Adept at troubleshooting and resolving complex IT challenges in diverse environments.
