CORE SKILLS

Frontend:
- React, Next.js (App Router)
- TypeScript, JavaScript
- SCSS Modules, CSS (BEM)
- Responsive, mobile-first UI
- Component systems, custom hooks

Rendering & Data
- SSR, SSG, ISR, CSR
- Data hydration & revalidation
- REST, GraphQL
- Caching strategies
- Data visualization (Chart.js)

Architecture
- Scalable folder architecture
- App & UI architecture
- BFF patterns
- Multilingual apps (next-intl)

State Management
- Zustand & Pinia (Vue)
- React Context

Tooling
- Git, Guthub, Storybook, ESLint CI/CD, Vite

Soft Skills
- Independent ownership
- Clear communication
- Mentoring
- Cross-team collaboration

LANGUAGES

English

French

SUMMARY

Front-End Web Engineer with 5+ years of experience specializing in **React, Next.js, TypeScript, and SCSS.**

I build performant, accessible, multilingual, and scalable user interfaces, often working with complex data-driven architecture, headless CMS integrations, and SSR/BFF rendering models.

Experienced in shipping enterprise-level, mobile-first applications, collaborating with cross-functional design/product teams and delivering production quality UI at scale.
Adept at architecting projects from scratch, defining structure, component systems and optimizing rendering and build performance

PROFESSIONAL EXPERIENCE

Front-End Engineer — Vestel Global

Sep 2025 — Present

Leading the frontend development and full UI rebranding of two major applications using Next.js 15, React 19, TypeScript, and SCSS Modules.

Key Contributions
- Multilingual architecture (next-intl)
- App architecture & scalability
- Core UI components
- Data fetching & caching
- Performance & CI/CD
- Mentorship

Front-End Developer — Valtech, Skopje

Nov 2021 — Aug 2025

Delivered enterprise-level React & Next.js applications with CMS-driven content (Contentful, AEM) and complex UI systems

Built data-driven interfaces and dashboards, integrating APIs and visualizing data for business use cases

Key Contributions
- Enterprise React/Next.js apps
- SSR / ISR / BFF
- Design systems & Storybook
- CMS & API integration
- Cross-team collaborations

Software Engineer — Intelligence Agency of N. Macedonia

Dec 2019 – Jul 2021

Worked on internal systems, automation, and infrastructure-related tooling.

.NET Core Developer (Intern) — Inscale

Aug 2019 – Nov 2019

Built MVC-based web application features using .NET Core.

EDUCATION

Bachelor of Computer Science and Information Technology
University American College, Skopje

OCTOBER 2016 — MAY 2019

Web Design, SEAVUS "Education and Development Center", Skopje

OCTOBER 2014 — MAY 2015
